Your selected tyre

MICHELIN STARCROSS 5 SOFT

MX

A high-performance motocross tyre designed for mixed and soft terrains.

Tested and approved by professionals

Outstanding technical performance

A variety of sizes

All-season

Key benefits

Michelin always aims to bring together multiple performances.

At MICHELIN, we never work on one isolated element of performance. Instead, we focus on the whole package: safety, durability and the thrill of riding... all at the same time and with no trade-offs. That's what we mean by MICHELIN® Total Performance™, which has and will always be our difference on every tyre.

Tested and approved by professionals

It took several years to develop these one-of-a-kind performance tyres. During our tests, our motorcycles rode on the roughest of terrains while enduring the most extreme of conditions.

Outstanding technical performance

More lightweight and maneuverable, the new Starcross 5 Soft features a combination of technologies. The key point is its carcass, which is considerably more flexible. Its performance on straight lines and curves is optimized, providing your motorcycle with improved traction and steadier handling around curves.

A wide variety of sizes

A wider variety of sizes for more extensive usage possibilities.
