Here is the information from michelinman.com on your tyre search for :

Your selected tyre

MICHELIN
POWER PURE SC
Electric, Roadster, Scooter, Step Thru
1st scooter tyre incorporating MICHELIN dual-compound (2CT) technology for greater grip and sportiness.

Grip	Longevity	Sportiness	All-season
------	-----------	------------	------------

Key benefits

Michelin always aims to bring together multiple performances.

At MICHELIN, we never work on one isolated element of performance. Instead, we focus on the whole package: safety, durability and the thrill of riding... all at the same time and with no trade-offs. That's what we mean by MICHELIN® Total Performance™, which has and will always be our difference on every tyre.

MICHELIN 2CT technology provides outstanding grip

Rubber that is hard in the middle for withstanding sudden acceleration and braking, and soft on the edges for maximizing lean angles. It is the first scooter tyre to integrate 2CT technology, originally developed in competition and for the sportiest motorcycles on the market.

Longevity

Greater longevity thanks to the slick central strip on the front and rear tyres: the MICHELIN Power Pure SC provides more rubber right where the scooter rider needs it the most.

Sportiness

Extra sportiness for the tyre's entire service life thanks to its tread derived from high-performance motorcycle tyres: uneven wear and tear helps maintain a "sportier" profile throughout the entire service life of the tyre!
